

# ANNOUNCING THE OPENING OF NEW MODERN WORKS

Specially equipped for the Manufacture of  
**MEDALS, BADGES, CUPS & TROPHIES IN GOLD, SILVER  
AND OTHER METALS**

We can supply the correct  
**MEDALS and BADGES**  
for every Sport or purpose.

The regular increase in our trade-year by year necessitated continual additions at our Hookley Street Works, but our progress has been so continued, that it was found quite necessary for us to have larger premises. Our new works at Regent Street are economically constructed with the one idea of providing absolutely efficient manufacturing conditions, coupled with modern systems of hygiene for the Staff's health and convenience. All this enables us to have still greater facilities for giving wonderful service to our customers, and we claim very definitely that our productions are of quite unusual excellence and value.

**T**HE OPENING OF OUR NEW WORKS, Studio and Offices at the above address, is an event of importance to us and to our customers, because these premises are equipped on the most modern lines not equalled by any other works of which we have heard. Our old premises had become far too small for our constantly increasing business, but now our output capacity is practically unlimited.

**THE PRIDE OF THIS FIRM** has always been in the quality of its products, first in the artistic merits of every piece designed and, second in the faithful permanent ability of the article produced to give each purchaser complete and unreserved satisfaction. Every employee of the Firm is trained in these traditions, with the object of rendering such perfect satisfaction to all customers as to secure the goodwill and future patronage of everyone who has once been a customer.

**THE CONSTANT AIM** of the Directors and Managers has always been to make this Firm excel both in its products and in its service. In its products by employing highly skilled artists and designers in alliance with the most efficient methods of manufacture; and in its service by placing at the disposal of its clients its technical knowledge, its wide experience and all the financial and artistic resources of the Firm.

**THOMAS FATTORINI LIMITED** are now in new premises, giving greater facilities than ever for designing and manufacturing our specialities, together with unlimited scope for large and expeditious production. No trouble has been spared in providing the most up-to-date equipment, so that we are now in the most favourable position of any Firm in the trade for dealing with orders and enquiries.

**IN THE PAST** we have been entrusted with orders for goods to be presented to His Majesty the King, also Badges for His Majesty's Government and many Municipalities. In every case, without exception, we have received the highest commendation.

**FOR PRIVATE PRESENTATIONS** we have produced original goods of innumerable kinds, whilst in Sporting requirements, we regularly manufacture countless designs of Medals and Trophies, and we hold to-day what is probably the largest stock of Medals in the Empire.

**FOR ARTISTIC WORK IN MEDALS, Medallions, Badges, Shields, Cups, etc.,** THOMAS FATTORINI LIMITED, stand unrivalled, and we invite enquiries for any of our products. We are happy at all times to submit suggestions and estimates, without obligation, and we cordially welcome every opportunity of showing our ability to render advantageous service to our clients.

Our customers are to be found all over the Globe.

*A Business Maxim:*

*"A good Buyer always buys direct from a Manufacturer — A smart Buyer buys from the best Manufacturer."*

Many of our Chief National  
Organisations have adopted  
designs from our Studio.

H.R.H. the Prince of Wales  
wore one of these Badges.

We are sure that buyers have a definite business interest in our new Works, because in these competitive days it must be evident that a firm can only have continued progress if it gives to its customers better service and more satisfaction than they can get elsewhere. Thomas Fattorini Ltd. do give this specially satisfactory service, and as a consequence the business has steadily progressed year after year and has now necessitated removal to these large new Works and Offices. We can now give you even better service than ever!

## APPRECIATION!

When Messrs. Carreras opened their wonderful new Factory recently, Mr. Bernhard Baron presented a Medal to each member of their enormous staff. Everything that Messrs. Carreras do has to be very perfect indeed, and when placing this large order for Medals with us, they expected the productions to be of the highest excellence.

Their appreciation of our work is as follows:

MESSRS. THOMAS FATTORINI LTD.  
TRAFALGAR WORKS,  
HOCKLEY STREET,  
BIRMINGHAM.

2nd November, 1928

Dear Sirs,

Realising as we do the limited time which we gave you to make the Silver Medals for distribution in connection with our Opening Ceremony we would like to convey to you how pleased we are to have received the complete deliveries from you. We are pleased, too, with the appearance of the Medals which have certainly been excellently produced, particularly taking into account the fact that you were asked to make so many alterations at the last moment.

You can rest assured that we will give you an opportunity in connection with any further supplies of silver articles we may require.

With compliments,  
Yours faithfully,  
CARRERAS LTD.,  
EDWARD BARON,  
Director.

# REGENT STREET QUALITY

## Artistic Shields, Cups and Trophies

CUPS and SHIELDS must have artistic merit if they are to be a credit to Donors. Our artists specialize in this difficult work, and we shall be pleased to submit exclusive designs for any Sport or purpose. Please write us.

THESE TROPHIES were designed and produced by us in Solid Silver and the Lowestoft Trophy had a Bronze Figure of Victory.

We are continually designing special Trophies, Shields, Caskets, etc., for every Sport and purpose, and the quality of our designs is unapproached in the trade. Ask us for suggestions.
